AUTHOR INDEX

Al-Gubory, K.H. and Martinet, J. (Jouy-en-Josas, France)
Effect of the corpus luteum on ovarian follicular populations and growth in the ewe 269
Alabi, N.S. and Whanger, P.D. (Corvallis, OR, U.S.A.)
Influence of dietary selenium on metabolism of cadmium and mercury in reproductive tissues of rats 143
Amjad, H., *see* Heuer, C. et al.
Anderson, L.L., *see* Benoit, A.M. et al.
Ball, H.J. and McCaughey, W.J. (Belfast, Northern Ireland)
An examination of the effects of ureaplasma infection on the fertility of synchronised ewes 61
Benoit, A.M., Molina, J.R. and Anderson, L.L. (Ames, IA, U.S.A.)
Prolactin secretion in cattle as affected by haloperidol and α-methyl-*p*-tyrosine 239
Biacchessi, D., *see* Tamanini, C. et al.
Boissin, J., *see* Mauget, R. and Boissin, J.
Boos, A., *see* Hoedemaker, M. et al.
Briois, M., *see* Colas, G. et al.
Cameron, A.W.N., Tilbrook, A.J., Lindsay, D.R. (Nedlands, W.A., Australia), Fairnie, L.J. (Northam, W.A., Australia) and Keogh, E.J. (Nedlands, W.A., Australia)
The number of spermatozoa required by naturally mated ewes and the ability of rams to meet these requirements 91
Chaudhary, K.C., *see* Khokhar, B.S. et al.
Chiesa, F., *see* Prandi, A. et al.
Cohen-Tannoudji, J. and Signoret, J.P. (Nouzilly, France)
Effect of short exposure to the ram on later reactivity of anoestrous ewes to the male effect 263
Colas, G., Guerin, Y. (Nouzilly, France), Briois, M. (St. Affrique, France) and Ortavant, R. (Nouzilly, France)
Photoperiodic control of testicular growth in the ram lamb 255
Cooke, R.G. and Homeida, A.M. (Liverpool, Great Britain)
Effect of progesterone administration on the release of uterine prostaglandin $F_{2\alpha}$ and ovarian oxytocin in the goat 191
Cox, R.I., *see* Croker, K.P. et al.
Cremonesi, F., *see* Ferrandi, B. et al.
Croker, K.P. (South Perth, W.A., Australia), Cox, R.I. (Blacktown, N.S.W., Australia), Johnson, T.J. (South Perth, W.A., Australia) and Wilson, P.A. (Blacktown, N.S.W., Australia)
The immunization of ewes against steroids as a means of increasing prolificacy in a Mediterranean environment 45
Czarnocki, J., *see* Krzymowski, T. et al.
De Rensis, F., *see* Tamanini, C. et al.
Downey, B.R., *see* Peirce, A.R.J. et al.
Einarsson, S., *see* Rojanasthien, S. et al.
Fairnie, L.J., *see* Cameron, A.W.N. et al.
Ferrandi, B., Cremonesi, F. and Porcelli, F. (Milan, Italy)
Microphotometric measurement of some enzymatic activities in rabbit spermatozoa during epididymal maturation 211

Fletcher, I.C., *see* Lubis, A. and Fletcher, I.C.
Gasse, H., *see* Hoedemaker, M. et al.
Gherardi, S., *see* Knight, T.W. et al.
Glover, T.E. and Watson, P.F. (London, Great Britain)
The effects of egg yolk, the low density lipoprotein fraction of egg yolk, and three monosaccharides on the survival of cat (*Felis catus*) spermatozoa stored at 5 °C 229
Gosling, J.P., *see* Quirke, J.F. et al.
Gray, S.J., *see* Pearce, D.T. et al.
Grunert, E., *see* Hoedemaker, M. et al.
Grunert, K., *see* Hoedemaker, M. et al.
Guerin, Y., *see* Colas, G. et al.
Hanrahan, J.P., *see* Quirke, J.F. et al.
Haresign, W., *see* Pearce, D.T. et al.
Heuer, C., Tahir, M.N. and Amjad, H. (Lahore, Pakistan)
Effect of season on fertility of frozen buffalo semen 15
Hoedemaker, M., Gasse, H., Boos, A., Grunert, K., Maas, D.H.A. and Grunert, E. (Hannover, Federal Republic of Germany)
Superfusion of bovine luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue .. 1
Homeida, A.M., *see* Cooke, R.G. and Homeida, A.M.
Hopfer, E., *see* Strzeżek, J. and Hopfer, E.; Strzeżek, J. et al.
Johnson, T.J., *see* Croker, K.P. et al.
Keogh, E.J., *see* Cameron, A.W.N. et al.
Khokhar, B.S., Singh, M. and Chaudhary, K.C. (Ludhiana, India)
Transaminases in cattle and buffalo (*Bubalus bubalis*) semen in relation to fertility and seminal characteristics during moderate and colder seasons 177
Knight, T.W. (Hamilton, New Zealand), Gherardi, S. (South Perth, W.A., Australia) and Lindsay, D.R. (Nedlands, W.A., Australia)
Effects of sexual stimulation on testicular size in the ram 105
Kotwica, J., *see* Krzymowski, T. et al.
Koziorowski, M., *see* Krzymowski, T. et al.
Krzymowski, T., Kotwica, J., Stefańczyk-Krzymowska, S., Czarnocki, J. and Koziorowski, M. (Olsztyn, Poland)
Prostaglandin $F_{2\alpha}$ back transfer from the mesometrium vasculature into the uterus of the gilt during early pregnancy and estrogen-induced pseudopregnancy 199
Laskowska, T., *see* Sławeta, R. and Laskowska, T.
Lindsay, D.R., *see* Cameron, A.W.N. et al.; Knight, T.W. et al.
Lubis, A. and Fletcher, I.C. (Bogor, Indonesia)
Post-partum reproduction in swamp buffalo cows at two feeding levels 183
Lundeheim, N., *see* Rojanasthien, S. et al.
Maas, D.H.A., *see* Hoedemaker, M. et al.
Macmillan, K.L. (Hamilton, New Zealand)
Book review of *Deep Freezing of Boar Semen*, by L.A. Johnson and K. Larsson (Editors) 161
Madej, A., *see* Rojanasthien, S. et al.
Martinet, J., *see* Al-Gubory, K.H. and Martinet, J.
Mauget, R. and Boissin, J. (Beauvoir-sur-Niort, France)
Seasonal changes in testis weight and testosterone concentration in the European wild boar (*Sus scrofa* L.) 67

McCaughey, W.J., *see* Ball, H.J. and McCaughey, W.J.
Ménézo, Y., *see* Techakumphu, M. et al.
Molina, J.R., *see* Benoit, A.M. et al.
Munshi, S. and Pandey, S.D. (Kanpur, India)
The oestrous cycle in the large-eared hedgehog, *Hemiechinus auritus* Gmelin 157
Oldham, C.M., *see* Pearce, D.T. et al.
Ortavant, R., *see* Colas, G. et al.
Pandey, S.D., *see* Munshi, S. and Pandey, S.D.
Pearce, D.T., Oldham, C.M., Haresign, W. and Gray, S.J. (Nedlands, W.A., Australia)
Effects of duration and timing of progesterone priming on the incidence of corpora lutea with a normal life-span in Merino ewes induced to ovulate by the introduction of rams 81
Peirce, A.R.J., Downey, B.R. and Sanford, L.M. (Ste. Anne de Bellevue, Que., Canada)
Seasonal changes in plasma concentrations of prolactin, LH, FSH, and testosterone in young adult bulls 165
Porcelli, F., *see* Ferrandi, B. et al.
Prandi, A., Romagnoli, G., Chiesa, F. (Bologna, Italy) and Tamanini, C. (Bari, Italy)
Plasma prolactin variations and onset of ovarian activity in lactating anestrous goats given melatonin 291
Prandi, A., *see also* Tamanini, C. et al.
Quirke, J.F., Hanrahan, J.P. (Dunsany, Ireland) and Gosling, J.P. (Galway, Ireland)
The effect of oestradiol benzoate on the duration of oestrus and release of LH in ovariectomized Galway ewe lambs and adult ewes 37
Robinson, T.J. (Sydney, N.S.W., Australia), Scaramuzzi, R.J. (Blacktown, N.S.W., Australia) and Smith, C.A. (Sydney, N.S.W., Australia)
The time of mating and of LH release and subsequent fertility of anoestrous Border Leicester×Merino ewes treated with progestagen and pregnant mare serum gonadotrophin 23
Rojanasthien, S., Madej, A., Lundeheim, N. and Einarsson, S. (Uppsala, Sweden)
Luteinizing hormone response to different doses of synthetic gonadotropin-releasing hormone during early and late lactation in primiparous sows 299
Romagnoli, G., *see* Prandi, A. et al.
Sanford, L.M., *see* Peirce, A.R.J. et al.
Scaramuzzi, R.J., *see* Robinson, T.J. et al.
Sevellec, C., *see* Techakumphu, M. et al.
Signoret, J.P., *see* Cohen-Tannoudji, J. and Signoret, J.P.
Singh, M., *see* Khokhar, B.S. et al.
Slaweta, R. (Mroków, Poland) and Laskowska, T. (Warsaw, Poland)
The effect of glutathione on the motility and fertility of frozen bull sperm 249
Smith, C.A., *see* Robinson, T.J. et al.
Stefańczyk-Krzymowska, S., *see* Krzymowski, T. et al.
Strzeżek, J. and Hopfer, E. (Olsztyn-Kortowo, Poland)
Zinc ion-dependent protein in boar semen. I. Egg yolk precipitating activity and some biochemical properties 117
Strzeżek, J., Hopfer, E. and Zaborniak, A. (Olsztyn-Kortowo, Poland)
Zinc ion-dependent protein in boar semen. II. Effects on sperm motility and antibacterial properties 133
Tahir, M.N., *see* Heuer, C. et al.
Tamanini, C. (Bari, Italy), Prandi, A., Biacchessi, D. and De Rensis, F. (Bologna, Italy)
Effects of melatonin treatment on the onset of ovarian activity, reproductive parameters and PRL plasma levels of immature ewes 283

Tamanini, C., *see also* Prandi, A. et al.
Techakumphu, M., Wintenberger-Torrès, S., Sevellec, C. (Jouy-en-Josas, France) and Ménézo, Y. (Villeurbanne, France)
Survival of rabbit embryos after culture or culture/freezing 221
Tilbrook, A.J., *see* Cameron, A.W.N. et al.
Watson, P.F., *see* Glover, T.E. and Watson, P.F.
Whanger, P.D., *see* Alabi, N.S. and Whanger, P.D.
Wierzbowski, S. (Kraków, Poland)
Book review of *Ethology of Farm Animals*, by A.F. Fraser (Editor) 162
Wilson, P.A., *see* Croker, K.P. et al.
Wintenberger-Torrès, S., *see* Techakumphu, M. et al.
Zaborniak, A., *see* Strzeżek, J. et al.

SUBJECT INDEX

α-Methyl-*p*-tyrosine
Prolactin secretion in cattle as affected by haloperidol and α-methyl-*p*-tyrosine 239
Bacteriology
Zinc ion-dependent protein in boar semen. II. Effects on sperm motility and antibacterial properties 133
Behaviour
Effects of sexual stimulation on testicular size in the ram 105
Ethology of farm animals (book review) 162
Biochemistry
Zinc ion-dependent protein in boar semen. I. Egg yolk precipitating activity and some biochemical properties 117
Buffalo
Effect of season on fertility of frozen semen 15
Post-partum reproduction in swamp buffalo cows at two feeding levels 183
Transaminases in *Bubalus bubalis* semen in relation to fertility and seminal characteristics during moderate and colder seasons 177
Cadmium
Influence of dietary selenium on metabolism of cadmium in reproductive tissues of rats .. 143
Cat
Effects of egg yolk, the low density lipoprotein fraction of egg yolk, and three monosaccharides on the survival of *Felis catus* spermatozoa stored at 5°C 229
Cattle
Effect of glutathione on the motility and fertility of frozen sperm 249
Prolactin secretion as affected by haloperidol and α-methyl-*p*-tyrosine 239
Seasonal changes in plasma concentrations of prolactin, LH, FSH, and testosterone in young adult bulls 165
Superfusion of luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue 1
Transaminases in semen in relation to fertility and seminal characteristics during moderate and colder seasons 177
Corpus luteum
Effect on ovarian follicular populations and growth in the ewe 269
Effects of duration and timing of progesterone priming on the incidence of corpora lutea with a normal life-span in Merino ewes induced to ovulate by the introduction of rams 81
Superfusion of bovine luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue .. 1
Egg yolk
Effects of egg yolk, the low density lipoprotein fraction of egg yolk, and three monosaccharides on the survival of cat (*Felis catus*) spermatozoa stored at 5°C 229
Zinc ion-dependent protein in boar semen. I. Egg yolk precipitating activity and some biochemical properties 117
Embryo culture
Survival of rabbit embryos after culture or culture/freezing 221
Endocrinology
Prolactin secretion in cattle as affected by haloperidol and α-methyl-*p*-tyrosine 239

Endocrinology, female
Effect of oestradiol benzoate on the duration of oestrus and release of LH in ovariectomized Galway ewe lambs and adult ewes 37
Effect of progesterone administration on the release of uterine prostaglandin $F_{2\alpha}$ and ovarian oxytocin in the goat 191
Effect of short exposure to the ram on later reactivity of anoestrous ewes to the male effect 263
Effects of duration and timing of progesterone priming on the incidence of corpora lutea with a normal life-span in Merino ewes induced to ovulate by the introduction of rams 81
Effects of melatonin treatment on the onset of ovarian activity, reproductive parameters and PRL plasma levels of immature ewes 283
Luteinizing hormone response to different doses of synthetic [illegible]otropin-releasing hormone during early and late lactation in primiparous sows 299
Plasma prolactin variations and onset of ovarian activity in lactat[illegible]nestrous goats given melatonin 291
Post-partum reproduction in swamp buffalo cows at two feeding levels 183
Superfusion of bovine luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue .. 1
Time of mating and of LH release and subsequent fertility of anoestrous Border Leicester × Merino ewes treated with progestagen and pregnant mare serum gonadotrophin 23
Endocrinology, male
Seasonal changes in plasma concentrations of prolactin, LH, FSH, and testosterone in young adult bulls 165
Seasonal changes in testis weight and testosterone concentration in the European wild boar (*Sus scrofa* L.) 67
Enzymology
Microphotometric measurement of some enzymatic activities in rabbit spermatozoa during epididymal maturation 211
Transaminases in cattle and buffalo (*Bubalus bubalis*) semen in relation to fertility and seminal characteristics during moderate and colder seasons 177
Fertility, female
Effects of melatonin treatment on the onset of ovarian activity, reproductive parameters and PRL plasma levels of immature ewes 283
Effects of ureaplasma infection on the fertility of synchronised ewes 61
Time of mating and of LH release and subsequent fertility of anoestrous Border Leicester × Merino ewes treated with progestagen and pregnant mare serum gonadotrophin 23
Fertility, male
Effect of glutathione on the motility and fertility of frozen bull sperm 249
Effect of season on fertility of frozen buffalo semen 15
Number of spermatozoa required by naturally mated ewes and the ability of rams to meet these requirements 91
Transaminases in cattle and buffalo (*Bubalus bubalis*) semen in relation to fertility and seminal characteristics during moderate and colder seasons 177
Follicle
Effect of the corpus luteum on ovarian follicular populations and growth in the ewe 269
FSH
Seasonal changes in plasma concentrations in young adult bulls 165

Glutathione
Effect on the motility and fertility of frozen bull sperm 249
Goat
Effect of progesterone administration on the release of uterine prostaglandin $F_{2\alpha}$ and ovarian oxytocin 191
Plasma prolactin variations and onset of ovarian activity in lactating anestrous goats given melatonin 291
Gonadotropin-releasing hormone
Luteinizing hormone response to different doses of synthetic GnRH during early and late lactation in primiparous sows 299
Haloperidol
Prolactin secretion in cattle as affected by haloperidol and α-methyl-*p*-tyrosine 239
Hedgehog
Oestrous cycle in the large-eared hedgehog, *Hemiechinus auritus* Gmelin 157
Immunology
Immunization of ewes against steroids as a means of increasing prolificacy in a Mediterranean environment 45
Lactation
Luteinizing hormone response to different doses of synthetic gonadotropin-releasing hormone during early and late lactation in primiparous sows 299
LH
Effect of oestradiol benzoate on the duration of oestrus and release of LH in ovariectomized Galway ewe lambs and adult ewes 37
Effect of short exposure to the ram on later reactivity of anoestrous ewes to the male effect 263
Luteinizing hormone response to different doses of synthetic gonadotropin-releasing hormone during early and late lactation in primiparous sows 299
Seasonal changes in plasma concentrations of prolactin, LH, FSH, and testosterone in young adult bulls 165
Superfusion of bovine luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue .. 1
Time of mating and of LH release and subsequent fertility of anoestrous Border Leicester × Merino ewes treated with progestagen and pregnant mare serum gonadotrophin 23
Male effect
Effect of short exposure to the ram on later reactivity of anoestrous ewes to the male effect 263
Melatonin
Effects on the onset of ovarian activity, reproductive parameters and PRL plasma levels of immature ewes 283
Plasma prolactin variations and onset of ovarian activity in lactating anestrous goats given melatonin 291
Mercury
Influence of dietary selenium on metabolism of mercury in reproductive tissues of rats 143
Nutrition
Immunization of ewes against steroids as a means of increasing prolificacy in a Mediterranean environment 45
Influence of dietary selenium on metabolism of cadmium and mercury in reproductive tissues of rats 143
Post-partum reproduction in swamp buffalo cows at two feeding levels 183

Oestradiol benzoate
Effect on the duration of oestrus and release of LH in ovariectomized Galway ewe lambs and adult ewes 37
Oestrous cycle
In the large-eared hedgehog, *Hemiechinus auritus* Gmelin 157
Oestrus
Effect of oestradiol benzoate on the duration of oestrus and release of LH in ovariectomized Galway ewe lambs and adult ewes 37
Post-partum reproduction in swamp buffalo cows at two feeding levels 183
Ovary
Effect of the corpus luteum on ovarian follicular populations and growth in the ewe 269
Effects of melatonin treatment on the onset of ovarian activity, reproductive parameters and PRL plasma levels of immature ewes 283
Plasma prolactin variations and onset of ovarian activity in lactating anestrous goats given melatonin 291
Oxytocin
Effect of progesterone administration on the release of uterine prostaglandin $F_{2\alpha}$ and ovarian oxytocin in the goat 191
Photoperiod
Photoperiodic control of testicular growth in the ram lamb 255
Pig
Deep freezing of boar semen (book review) 161
Luteinizing hormone response to different doses of synthetic gonadotropin-releasing hormone during early and late lactation in primiparous sows 299
Prostaglandin $F_{2\alpha}$ back transfer from the mesometrium vasculature into the uterus of the gilt during early pregnancy and estrogen-induced pseudopregnancy 199
Zinc ion-dependent protein in boar semen
I. Egg yolk precipitating activity and some biochemical properties 117
II. Effects on sperm motility and antibacterial properties 133
Pig, wild
Seasonal changes in testis weight and testosterone concentration in *Sus scrofa* L. 67
PMSG
Time of mating and of LH release and subsequent fertility of anoestrous Border Leicester × Merino ewes treated with progestagen and pregnant mare serum gonadotrophin 23
Progestagens
Time of mating and of LH release and subsequent fertility of anoestrous Border Leicester × Merino ewes treated with progestagen and pregnant mare serum gonadotrophin 23
Progesterone
Effect of progesterone administration on the release of uterine prostaglandin $F_{2\alpha}$ and ovarian oxytocin in the goat 191
Effects of duration and timing of progesterone priming on the incidence of corpora lutea with a normal life-span in Merino ewes induced to ovulate by the introduction of rams 81
Post-partum reproduction in swamp buffalo cows at two feeding levels 183
Superfusion of bovine luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue .. 1
Prolactin
Effects of melatonin treatment on the onset of ovarian activity, reproductive parameters and PRL plasma levels of immature ewes 283

Plasma prolactin variations and onset of ovarian activity in lactating anestrous goats given melatonin 291
Seasonal changes in plasma concentrations in young adult bulls 165
Secretion in cattle as affected by haloperidol and α-methyl-*p*-tyrosine 239
Prostaglandins
Effect of progesterone administration on the release of uterine prostaglandin $F_{2\alpha}$ and ovarian oxytocin in the goat 191
Prostaglandin $F_{2\alpha}$ back transfer from the mesometrium vasculature into the uterus of the gilt during early pregnancy and estrogen-induced pseudopregnancy 199
Pseudopregnancy
Prostaglandin $F_{2\alpha}$ back transfer from the mesometrium vasculature into the uterus of the gilt during early pregnancy and estrogen-induced pseudopregnancy 199
Rabbit
Microphotometric measurement of some enzymatic activities in spermatozoa during epididymal maturation 211
Survival of embryos after culture or culture/freezing 221
Rat
Influence of dietary selenium on metabolism of cadmium and mercury in reproductive tissues 143
Reproductive performance
Immunization of ewes against steroids as a means of increasing prolificacy in a Mediterranean environment 45
Seasonal variation
Effect of season on fertility of frozen buffalo semen 15
In plasma concentrations of prolactin, LH, FSH, and testosterone in young adult bulls ... 165
In testis weight and testosterone concentration in the European wild boar (*Sus scrofa* L.) 67
Selenium
Influence of dietary selenium on metabolism of cadmium and mercury in reproductive tissues of rats 143
Semen
Deep freezing of boar semen (book review) 161
Semen characteristics
Effect of season on fertility of frozen buffalo semen 15
Transaminases in cattle and buffalo (*Bubalus bubalis*) semen in relation to fertility and seminal characteristics during moderate and colder seasons 177
Zinc ion-dependent protein in boar semen
I. Egg yolk precipitating activity and some biochemical properties 117
II. Effects on sperm motility and antibacterial properties 133
Sheep
Effect of corpus luteum on ovarian follicular populations and growth in the ewe 269
Effect of oestradiol benzoate on the duration of oestrus and release of LH in ovariectomized Galway ewe lambs and adult ewes 37
Effect of short exposure to the ram on later reactivity of anoestrous ewes to the male effect 263
Effects of duration and timing of progesterone priming on the incidence of corpora lutea with a normal life-span in Merino ewes induced to ovulate by the introduction of rams 81
Effects of melatonin treatment on the onset of ovarian activity, reproductive parameters and PRL plasma levels of immature ewes 283

Effects of sexual stimulation on testicular size in the ram 105
Effects of ureaplasma infection on the fertility of synchronised ewes 61
Immunization of ewes against steroids as a means of increasing prolificacy in a Mediterranean environment 45
Photoperiodic control of testicular growth in the ram lamb 255
Number of spermatozoa required by naturally mated ewes and the ability of rams to meet these requirements 91
Time of mating and of LH release and subsequent fertility of anoestrous Border Leicester × Merino ewes treated with progestagen and pregnant mare serum gonadotrophin 23

Spermatozoa
Effect of glutathione on the motility and fertility of frozen bull sperm 249
Effects of egg yolk, the low density lipoprotein fraction of egg yolk, and three monosaccharides on the survival of cat (*Felis catus*) spermatozoa stored at 5 °C 229
Microphotometric measurement of some enzymatic activities in rabbit spermatozoa during epididymal maturation 211
Number of spermatozoa required by naturally mated ewes and the ability of rams to meet these requirements 91

Spermatozoa motility
Zinc ion-dependent protein in boar semen. II. Effects on sperm motility and antibacterial properties 133

Spermatozoa preservation
Effects of egg yolk, the low density lipoprotein fraction of egg yolk, and three monosaccharides on the survival of cat (*Felis catus*) spermatozoa stored at 5 °C 229

Steroids
Immunization of ewes against steroids as a means of increasing prolificacy in a Mediterranean environment 45

Superfusion
Of bovine luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue 1

Techniques
Deep freezing of boar semen (book review) 161
Superfusion of bovine luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue .. 1

Testis
Effects of sexual stimulation on testicular size in the ram 105
Influence of dietary selenium on metabolism of cadmium and mercury in reproductive tissues of rats 143
Photoperiodic control of testicular growth in the ram lamb 255
Seasonal changes in testis weight in the European wild boar (*Sus scrofa* L.) 67

Testosterone
Seasonal changes in plasma concentrations of prolactin, LH, FSH, and testosterone in young adult bulls 165
Seasonal changes in testis weight and testosterone concentration in the European wild boar (*Sus scrofa* L.) 67

Tissue culture
Superfusion of bovine luteal tissue slices: basic secretion, influence of LH on progesterone secretion and influence of superfusion on the preservation of the tissue .. 1

Ureaplasma
Effects of ureaplasma infection on the fertility of synchronised ewes 61

Zinc
Zinc ion-dependent protein in boar semen
I. Egg yolk precipitating activity and some biochemical properties 117
II. Effects on sperm motility and antibacterial properties 133
